

Adopt A School

A **Model** that inherits any or all of the **School Connectivity** channels enabling its functions and results to be scalable and reach a larger number of establishments.

This will also invoke outside involvement and bring **community closer to our schools** - a much-needed effort to increase the integrity of the **relationships between schools and the outside world**.

Donations & Funding Covering Necessities

Create opportunities around finding and securing a means to donate **products** and **funds** to schools to better equip the classroom, teachers and other sectors, eliminating the need for establishments to self-fund operations and items.

Utilization of the **Parent Centers** to act as a channel and point of contact to create these transactions and deliver the donations and other services.

Teacher Empowerment Circle Experts on the Inside

A network of **teachers** on the inside providing their expertise as a means of **knowledge transfer** and **know-how** so that we can better understand what is happening in the academic landscape. By receiving this **real-time** information, we can help develop more effective solutions for inside the classroom — for teachers and students.

Programming Integrate Services & Products

Implementation of dynamic, data-driven **curricula** along side additional services for supports in **Socio-emotional** and **Mental Health**. Programs and services will continue to be developed after conducting necessary **Needs Assessments** to ensure effective delivery.

Classroom Presence Crucial Download

Being in the classroom is an essential part of doing the **necessary research** to better the quality of life of the classroom for both teachers and students.

This enhances our **support for teachers** and enables us to be more innovative about offering solutions for **teacher retention** and improving the overall job health of the teacher's role in the classroom.
